Professional Summary

Full-Stack Developer (Fresher) with hands-on project experience in the MERN stack (MongoDB, Express, React, Node, MySQL). Strong foundation in computer science fundamentals with the ability to quickly adapt to new technologies. Skilled in designing and implementing scalable web applications, object-oriented programming, and problem-solving using data structures and algorithms. Hands-on experience in building full-stack projects, integrating RESTful APIs, and managing databases.

Seeking opportunities to apply technical knowledge and innovative problem-solving skills in real-world software development projects.

Technical Skill

- **Languages:** Java, Typescript, JavaScript
- **Backend:** Node, Express, REST API, JWT Authentication
- **Frontend:** React, Tailwind CSS, HTML5, CSS3
- **Databases:** MongoDB, MySQL, PostgreSQL
- **DevOps / Cloud:** GitHub Actions (CI/CD), AWS EC2, Vercel
- **Payment Integration:** Razorpay (test mode), API key handling
- **Tools:** Git, GitHub, Postman, VS Code

Education

JAHAGIRABAD INSTITUTE OF TECHNOLOGY, B.Tech in Computer Science	Sept 2021 – August 2025

- GPA: 7.3/10.0
- **Coursework:** Computer Architecture, Comparison of Learning Algorithms, Computational Theory

ORIENTAL COLLEGE, PATNA CITY, I.Sc in Science	June 2019 – April 2021

- BSEB (class XII) 63%

RED CARPET HIGH SCHOOL	May 2018 – June 2019

- ICSE (class X) 67%

Project

Coaching Institute Management Website, LINK
- Full-stack platform with Home, Result, Student & Teacher modules | React, Node.js, Express, MongoDB
- Integrated **secure authentication (JWT)** and maintained session handling for different users
- Used **Git & GitHub** for version control and **Postman** for API testing

Food Recipe Manager, GitHub Repo
- Developed a **web application** to store and manage food recipes with **user authentication and authorization**
- Created a responsive **frontend using React & Tailwind CSS** for seamless user experience
- Designed functionality for **users to create, update, and view recipes**, ensuring personalized access

TODO App, GitHub Repo
- Built a **To-Do application** with **CRUD functionality** (add, update, delete, mark complete) using **React**
- Implemented **state management with Redux Toolkit** for efficient task handling and scalability
- Used **Context API and props** for managing local state and passing data across components

Certification and Achievement

MERN Stack Certified by Apna College	25 August 2024
Workshop on Java Development by BARRONNZ	22 May 2023
Frontend Developer Internship Certified by CodeSoft	10 November 2024

Position and Responsibility

President Of JETGI FOOD CLUB	25 May 2024 - Present
Member Of Anti-Ragging Committee	June 2023 - Present
Representative of B.Tech Student in Mess Committee	Nov 12 - Present
